

Sample Resolution for Organizations

The Wisconsin Alliance for Women's Health affirms that:

- The ability of women to lead fulfilling lives and participate fully in society depends in large part on their health.
- Reproductive health is a critical component of women's health.
- Women's access to safe, comprehensive reproductive health care is essential to healthy Wisconsin women, families and communities.

We also recognize that Wisconsin's laws governing women's health and reproductive health are some of the most restrictive in the nation **despite** strong public opinion in support of access to birth control, prenatal care, funding for family planning and responsible sex education. We encourage organizations to join us in a shared effort to broaden and deepen our united commitment to women's health and to highlight our common values when it comes to issues of women's health.
